|-----------------|---|
| Project Title | Embassy Beirut - Social Media Analysis to Combat Visa Fraud |
| Project Summary | Monitor open source Arabic-language websites and social media to identify trends in visa fraud. |
| Country | Lebanon |

Project Description

Interested in helping the U.S. Embassy in Beirut combat immigration fraud? The Fraud Prevention Unit is seeking two eInterns with strong Arabic language skills to monitor open source news and social media websites for chatter about obtaining U.S. visas in Lebanon. This internship will put you on the front lines of the U.S. Embassy's efforts to stay ahead of new trends in visa fraud. If you want a substantive experience where you can make a real impact in keeping our borders secure, this is this internship for you.
